# HOW REGISTRANTS MAY OBTAIN THEIR TRANSFERS

Exemption Boards are Instructed to Allow Men to Be Classified Where They Reside.

MANY CARDS BEING MAILED

No Accurate Data Available as Yet Regarding the Number of Registrants in Class 1—Will Not Be as Large as Had Been Expected.

Additional proof of the government's determination to assist the registrants in complying with the rules of the selective service act was received yesterday at the headquarters of the local boards in the form of a letter from the adjutant-general's office in Washington. It stated that reports had reached Washington that registered men in some localities had been refused the privilege of transferring their classification to the board where they were originally registered to the jurisdiction of some board located near their present place of residence, which was designed particularly for the benefit of men who had moved from one city to another since June 5.

The attention of the members of the boards is called to section 144 of the selective service regulations where detailed instructions are given for the transfer of classification. It is evident that under the present circumstances unnecessary hardship and inconvenience would be avoided by placing the duties of classification in the hands of a board near which the registrant now resides, the latter is entitled to ask for such transfer. Indeed it often happens that the nearer board is in a far better position to consider the claims of the registrant than is the board where he originally registered, for the latter is often the official that the registrant is being made with the motive of attempting to escape military service through some subterfuge.

# ONLY ONE DELIVERY OF MILK HEREAFTER

No Longer Will Frozen-Fingered Milkmen Hunt Gas or Early Hours of Frosty Mornings.

Joining in the conservation movement milk distributors of Richmond will hereafter make but one delivery per day. The new regime goes into effect to-morrow morning. No more will the sleep be disturbed by the banging of the milkman at 4 A. M., nor will the housekeeper be forced to use frozen milk which has been on her stoop three or four hours when she gets up.

Announcement was made yesterday by the Richmond and Rennie Dairies that, beginning to-morrow, there would be but one delivery daily. Milk wagons will leave the company's barns at 7 o'clock in the morning, but, as the routes will be much larger than heretofore, it may be several hours before the driver reaches the average household.

"We regard this step not only as a matter of conservation, but as a humane act to outcast early hours," said H. H. Vaden, of the Rennie Dairy, last night. "Under the old system our men reported at 3 A. M. and did much of their work in the coldest hours of winter mornings. Frost slipped over the streets, and there was no one to help the driver if his horse fell. By the change we will be able to save considerable fuel, as heretofore the distribution offices have had to be heated by 1 A. M., when the stable men reported and began getting the teams ready. We find that daylight delivery has worked well in other cities, especially in cold weather, and once housekeepers get used to the new hours there will be little cause of complaint. We will not only be saving in light and fuel at the office, but in freezing and discomfort to the men and cruelty to the horse."

Heretofore there have been two deliveries daily, one beginning about 2 A. M., and the other during the morning. The drivers could get over their routes for the second time.

**14 BELOW AT ARVONIA**  
Railroad Water Tanks Frozen Solid and All Work Completely Paralyzed.

(Special to The Times-Dispatch.)  
ARVONIA, Va., January 21.—Frightful cold still continues in this section. The United States government thermometer at New Canton registering below zero below zero last night. Mopses and mumps are raging in the white winter-rages with-out. Schools have suspended in many instances, and stores to-day are closed. Old settlers are speaking of moving further South, if by any means they can get away.

James River continues frozen, with vast mountains of ice stacked up everywhere, ready to turn loose at the first real thaw.

# CARDUI A SPLENDID TONIC

For Women, Says Hixson Lady, Who Took This Medicine On Her Doctor's Advice.

Hixson, Tenn.—Mrs. J. B. Gadd, of this place, makes the following statement regarding her experience with Cardui: "I was . . . I suffered with a pain in my left side; could not sleep at night for this pain—always in the left side. My feet and legs were terribly swollen. I was almost in bed."

My doctor told me to use Cardui. I took one bottle, which helped me, and after my baby came I was stronger and better, but the pain was still there. I at first let it go, but I began to get weak and in run-down condition, so I decided to try some more Cardui, which I did. The last Cardui I took made me much better, and, in fact, cured me. It has been a number of years, still I have no return of this trouble. I feel it was Cardui that cured me, and I recommend it as a splendid female tonic."

If you feel weak, tired, worn-out, or suffer from any of the ailments peculiar to women, try Cardui, the woman's tonic. It must be a good medicine for women, for many thousands have voluntarily told, just as Mrs. Gadd did, of the good it has done them. Ask some lady friend who has tried Cardui. She will tell you how it helped her. Then get a bottle from your nearest druggist.—Adv.

# SUNDAY SCHOOL TEACHERS MEET THIS AFTERNOON

Perfecting Plans for More Vigorous Work Along Interdenominational Lines.

A very important meeting of the elementary Sunday school teachers and officers of the city will be held at the Presbyterian Publishing House this afternoon at 3:30 o'clock. Miss Katherine Froh, State superintendent of elementary work, will be present to speak and will plan with workers in the city for the coming conference which will be held in connection with the State Sunday School Convention, February 5-7, and also take up matters with reference to the advancement of the elementary work here.

A few months ago the elementary workers were organized under the direction of the City Sunday School Association. On account of the illness of the president this work has not progressed as satisfactorily as the officers had desired, but at this meeting plans will be developed for vigorous work during the present year. All denominations are represented, and the three departments known as junior, primary and beginners, are included in the elementary department.

There are about 1,000 teachers and officers engaged in these departments in the various Sunday schools of the city. It is expected that a large representative audience will be present. The conference is strictly interdenominational, being under the direction of the City Sunday School Association.

**Gravel Bed Offered City.**  
Five acres of land on Rogers Street, near Oakwood Avenue were offered the city yesterday for gravel purposes, for \$7,000. The Administrative Board received the matter to the engineer for investigation to the quantity and quality of the gravel on the property, and for his recommendations.

**New Draft Ruling.**  
Provost-Marshal-General Crowder has issued a construction of section 121, selective service regulations, allowing claims for deferred classification in the cases of men already put in Class 1 to permit farmers and others who need help to obtain deferred classification for men in Classes 1 and 2 during such time as they are engaged in necessary employment. This will affect a great number of men in the first classes, whose earnings are less than that of a private in the army, and offers a partial solution to the labor problem, suggested by the War Department.

**High School Debate.**  
The Phi Kappa Epistolar Literary Society of John Marshall High School will meet this evening in room 113 at 9:30 o'clock. The subject for debate is, "Resolved: That the thirteen colonies had a better right to rebel than the thirteen Southern States to secede." Visitors are invited.

**Give it in Time**  
Every mother knows that coughs and colds, neglected, may lead to more dread diseases. Croup, bronchitis, pneumonia and consumption often have their beginning in a slight cold.

The wise mother gives **Foley's Honey and Tar** at the first signs of a cough or cold. She knows it stops coughs quickly, puts a soothing, healing coating on an inflamed and tickling throat, and gives a feeling of warmth and comfort to the sufferer.

Fertel is charged with stealing a motor car, which was recovered several days ago. Both men were arrested in Richmond and placed in the City Jail, an officer could take them back to Hopewell.

**Men Welcome Mother's Friend**  
A Duty that Every Man Owes to Those who Perpetuate the Race.

It is just as important that men should know of proper methods in advance of motherhood, suffering, pain and distress incident to childbirth can be avoided by having at hand a bottle of the time-honored preparation, Mother's Friend. This is a penetrating external application that relieves the tension upon the muscles and enables them to expand without painful strain upon the ligaments and nerves.

Thousands of women for over half a century who have used Mother's Friend tell how they entirely avoided nervous spells and nausea and preserved a bright, happy disposition that reflects wonderfully upon the character and disposition of the little one soon to open its eyes in bewilderment at the joy of its arrival.

You can obtain Mother's Friend at any drug store. It is for external use only. It absolutely relieves all so-called "premenstrual" pains. Write to the Bradfield Regulator Co., 15 Broad Street, Boston, for a free booklet, "Mother's Friend," and a bottle of Mother's Friend at the druggists to-day. It is the greatest kind of help to nature in the glorious work of motherhood.—Adv.
